

The diagram illustrates a cadastral parcel (KADASTRO NO) divided into blocks (BLOK) and parcels (PARSEL). The parcel is represented by a large rectangle with a grid of smaller rectangles. The grid is divided into three main sections: a top section labeled 'BLOK', a middle section labeled 'PARSEL', and a bottom section labeled 'PARSEL'. The top section is further divided into three blocks, each labeled 'BLOK'. The middle section is divided into three parcels, each labeled 'PARSEL'. The bottom section is divided into three parcels, each labeled 'PARSEL'. A scale bar at the top indicates the distance between the sections: 516/39.....517/16. A legend at the bottom defines the symbols used: a blue square for 'YAPI' (Building), a red square for 'TİCARİ YAPI' (Commercial Building), and a green rectangle for 'BOTAŞ İRTİFAK ALAN' (BOTAS Right-of-Way Area).
